

Diabetes Center
University of California, San Francisco

A history of Innovation
a vision of a cure

You and your colleagues are invited to our 10TH ANNIVERSARY SCIENTIFIC SYMPOSIUM

JOIN US at our SCIENTIFIC SYMPOSIUM in DIABETES as we celebrate the 10th Anniversary of the Diabetes Center at UCSF, when we united diabetes research, clinical care and education into a comprehensive program for the benefit of those living with diabetes.

Friday, September 24, 2010
8 a.m. - 5 p.m.
Cole Hall, UCSF School of Medicine
513 Parnassus Avenue, San Francisco

To learn more about this exciting educational program:

This anniversary program is **OPEN TO ALL** physicians, nurses, nurse educators, dietitians, researchers and other medical professionals in Northern California.

There is **NO FEE** to attend this event. All attendees who RSVP in advance of the program will receive a continental breakfast, box lunch, and refreshments.

FREE PARKING available to attendees.

PLEASE RSVP by **Tuesday, September 21st**. (*Space is limited so early registration is strongly suggested.*)

Thanks to our generous industry supporters (acknowledged above), we are offering this program free of charge. (*Underwriting opportunities remain available. For more information, please contact [Lorraine Stiehl](#).*)

For over a half century, UCSF researchers and clinicians have been making breakthrough discoveries that have improved diabetes treatment and care for individuals with diabetes and their families. Ten years ago, a new, comprehensive Diabetes Center was created that united the research, clinical care and education aspects of diabetes to more rapidly improve the quality of life of those living with diabetes. In these past ten years, we've accelerated our basic research efforts and have aggressively pursued promising clinical research to help generate new treatments for this disease.

We invite you to learn more by accessing our website. www.diabetes.ucsf.edu We also invite you to access our online diabetes educational website created by our UCSF Diabetes Teaching Center, Diabetes Education Online. www.deo.ucsf.edu

If you have questions regarding this program or the Diabetes Center at UCSF, contact [Lorraine Stiehl](#).
